Service for packing goods

Packing and wrapping service

The best of packing stuff for household moving

Good move provides packing and wrapping services with materials, equipment and excellent service from a quality team. This ensures that all your belongings will be taken care of during the move.

1. Corrugated paper and Box packaging.

Carton is the main packaging material for transporting a variety of sizes should check that the box is in good condition, not torn Use boxes in different sizes depending on the item. And choose the items to fit the size of the box, with standard size 42.2x36.8x30.5 cm. , 46x46x40.5 cm. , 45x73x55 cm.

The wavy corrugated paper, corrugated paper can reduce the impact and scratch resistant as well. Both thin and thick. On some models can be bent or folded. For goods wrapped with square shape. But not suitable for wrapping of a curved or rounded. The heavy strength Suitable for leg cabinet table next to the bed at the edges of objects that may have been affected. Or may be used as a divider between the top of the box was. The disadvantage is that, May tear easily When you scratch the object or the other, so may a transparent plastic film is wrapped up again just to be safe.

The dimension of boxes

- 1.1 Small box size 42.2x36.8x30.5 cm.
- 1.2 Medium box size 46x46x40.5 cm.
- 1.3 Big box size 68x39x55 cm.
- 1.4 Document box size 42.2x36.8x30.5 cm.
- 1.5 Box for hang shirt size 52.5x58.5x97.3 cm.
- 1.6 Horizontal box size 52.5x97.7x23.9 cm.
- 1.7 Corrugated paper cushions sharp corners and corners of the product.
- 1.8 Corrugated paper

2. Crate box packaging

Ideal for packing large pieces of heavy and fragile, like a vase or a large statue. Purchased from the fruit market warehouse or store material. Antique store it's very large. Wood chips may be used to power a simple and before packing into crates. Materials should prevent any contact between the layer of the crates. Some crates and boxes that do not stand for it, so we get the Pallet.

3. Plastic wrap

No single type of plastic used to wrap food. However, as the plastic used to wrap furniture. Which is thicker than a little convenient, because plastic can stick together without tape. Ergonomic package that just do not want to mess up. Be careful not to break the story, such as upholstery, mattress, chairs or armchairs. Purchased at a stationery shop. Or store plastic Both meters are cut and sold for a large roll. A wide variety of sizes, most have a width of 50 cm. length 300 m.

4. Bubble wrap

The encapsulated material, broken or prevent scratches very well. With a thin sheet You can bend shape objects wrapped it all. Purchased at a stationery shop online. But the relatively high price Should buy a big roll. Which has a width of approximately 1.20 m. Prices will be able to use a large piece of plastic wrap cushioning are two types.

- 4.1 foam with a thickness of 1 mm. In size 1.3x1 mm. , 0.6x5 mm., 0.65x10 mm.
- 4.2 is a bubble of air cushioning makes good size 1.3x1 mm., 0.6x5 mm. , 0.65x10 mm.

5. Moving Blanket for wrap

The encapsulated material, broken or prevent scratches very well. The manner in which the fabric is thin and toughness. The curved shape of articles to be wrapped up by the form. Can be re-used again, saving costs to customers for the removal work temporarily with another (which does not move to store and move to other provinces and foreign) policy of the company. It saves natural resources and reduces global warming, too.

6. Wrapping with shockproof corrugated paper.

It is very good to wrap around broken items or prevent scratching With the appearance of a thick wavy paper Making it possible to bend the shape according to the wrapped item according to the pattern It can be reused only a few times, making it ideal for customers to move the encapsulated for storage without unpacking. (That moved for storage and moved abroad)
